Important Update on U.S. Tariffs and Their Impact on Your Business

Dear Valued Customer,

On April 2, 2025, the U.S. Administration announced the implementation of new tariffs on goods entering the United States. These measures aim to align U.S. import duties with those imposed by other countries on American exports. While further operational details continue to evolve, VPG remains committed to keeping you informed and supported throughout this transition.

Tariff Application and Invoicing Approach

In response to these developments, VPG will continue to apply tariff-related charges in accordance with the most current official guidance issued by the U.S. government at the time of invoicing. This approach is designed to ensure compliance with regulatory requirements while maintaining transparency and flexibility as policies change.

Impact on Existing Orders

We are actively working with our suppliers to explore ways to mitigate the financial impact of these tariffs. However, due to the scale of the changes, it may not be feasible to absorb all associated costs. Your VPG Account Manager may reach out as needed to discuss any necessary pricing adjustments. These conversations will also provide an opportunity to explore alternative solutions to support your ongoing needs.

Tariff-related price adjustments will vary depending on the country of origin and may be influenced by broader inflationary pressures on raw materials. Please note that slight delays in invoicing may occur during this transition period, and we appreciate your patience and understanding.

Our Commitment to You

We recognize the operational and financial challenges these changes may present. VPG remains dedicated to fairness, transparency, and the highest standards of service. We are here to support your business with integrity and partnership as the situation evolves.

If you have any questions or need further assistance, please contact your Account Manager or our Customer Service team. We value your trust and look forward to continuing our successful collaboration.

Thank you for your continued partnership.

With sincere appreciation,

Rafi Uzan
